

*** BREAKING NEWS ***

What: Creation Museum Tours

Where: Fick Fossil Museum, Oakley, Kansas – 3rd and Cherry Ave
(west end of town, north of the Courthouse)

When: Wednesday, March 19 @ 10:00 am

Presenting: Dr. Thomas Sharp of Creation Truth Foundation, Inc.

Audience: Home school children, parents and grandparents (aunts, uncles, friends!)

You don't have to be associated with Home Schooling to come. All are invited!

Dr. Thomas Sharp, president and founder of Creation Truth Foundation, Inc. will be presenting the Truth about Dinosaurs to the younger audience, however all are welcome to attend. We will start our tour at the Oakley Fick Fossil Museum in Oakley, Kansas where Dr. Sharp will talk about the fossils and sharks teeth on display at the museum. After our brief tour at Fick Fossil, we will move our discussion to the Oakley High School Auditorium where the Creation Truth Foundation Mobile Museum will be set up. There Dr. Sharp will talk about his collection of dinosaur bones including Pebbles the Albertosaur, Stan the T.rex, and Gundy the Triceratops and many others.

This is GREAT Event to get kids of all ages (including me and I'm 41) excited about studying the evidence left behind in fossils and learning to decipher what is true about Dinosaurs and Creation.

Sincerely,

Thomas M. Annis
Creation Seminar Event Coordinator
